BRDG Features Key:

- Classic Rock vs. Roll!
- Modular Battle Engine
- Settlers of Catan - Settlement and Production Phase
- Tower Of Doom - Fight with powerful units
- Arena Combat - Fight and grab victory points
- Trade and Train

Players get a resource at the end of their turn. Sell and buy cards to gain more resources for subsequent turns. Robbing your neighbor to grab Victory Points will win you the game!

During the game, victory points are deducted for each player. Additionally, if your opponent scores the most Victory Points, you lose the game. The player with the most victory points wins.

The Battle Engine features 12 cards that represent Leaders, Combat units, and Buildings. These cards can never be found in the game, and are entirely unique to the game. Use more Leaders and lower troop levels. Use higher terrain obstacles to force opponents into awkward configurations. Rather have a unit attack a Siege Tower? Capacitate its opponent first, so he can't retaliate afterwards!

Settlers of Catan is a landmark game, and the first mobile expansion built for Catan adds an exciting new dimension to the Catan universe! Or so we hope. Settlers II: Catan is just as difficult as the original yet challenging for new players. We've also incorporated several clever house rules to make the game more accessible, including Catan Standardized Cards, Inflation, Victory Point Tracking, Diplomacy, and more!

Features:

- Classic Rock vs. Roll!
- Modular Battle Engine
- Settlers of Catan - Settlement and Production Phase
- Tower Of Doom - Fight with powerful units
- Arena Combat - Fight and grab victory points
- Trade and Train

We are working on the sequel "Sovietpunk: Chapter two" and other game projects. "Sovietpunk: Chapter one" was produced on the basis of early testing version 2.0. It was released for free download. Later, we released the testing version 3.0, which we worked on in private. Due to the fact that we were not able to release the final version on the basis of this testing version, we ask you, to not sell or distribute this version, and to express our sincere apologies for the inconvenience. As with all our release versions, we released the final version "Sovietpunk: Chapter one" free of charge and without time limits. Unfortunately, some people bought it and tried to sell it on various sites on the Internet. We can not legally prohibit such actions. We ask you to support us with our work, and let this version disappear. Thank you. Play as the crew of the USS Surprise in the Starfinder Roleplaying Game! A new generation of starships is being developed from the remnants of Earth's lost fleet. Your starship, the Surprise, is nearing completion, and the crew is eager for the day when it will be ready to set out on an interplanetary mission. However, something is amiss in the shipyards. Something has gone terribly wrong, and the shipyards are now sending the crew home in a hurry. The shipyard workers assure the crew that the ship is safe and that it has been sent on its way. However, as soon as the crew is out of sight, the ship blows up, and the Surprise is gone, apparently destroyed as if it never existed. The crew is ordered back into duty, and the captain, Rico Davis, orders his second in command, Shaddy, to lead the crew to an abandoned planet, which contains clues that will help them solve the mystery. This is a desperate mission, however, as the crew will have to traverse a dangerous hyperspace in a way that is unstable and unfamiliar. Can the crew solve the mystery before the Surprise's voyage is complete? And can they come out of this alive? -- Game Play In the Starfinder Roleplaying Game, your crew of first-time starship adventurers can take on any number of roles. Crew members can represent intrepid explorers, brave captains, determined telepaths, inquisitive botanists, or any number of other specialist roles. Your players can even specialize in any number of roles. How they enjoy playing on the crew of the Surprise will depend on how well the player fulfills that role. Some players may enjoy dropping back to support their crew from the bridge, while others will relish the chance to take the lead and direct their crew from the cockpit. Regardless of how your players enjoy playing on the crew of the Surprise, the potential for high-level heroics is immense. The crew can take charge of the ship and direct it to a safe, unexplored destination. They can also pursue dangerous missions or indulge in a bit of bounty hunting. You may give your players the chance to earn the trust of alien races or to prove their loyalty to an eccentric old lady. It all depends on your players' actions, and it is up to you to direct the course of the ship through the biggest, most complicated adventure of your career! -- The Legendary Planet Adventure Path The Legendary Planet Adventure Path includes a full adventure written
