New to gameplay this year, FIFA Ultimate Team features real-life information from FUT players' Match-Tracking, including goals, shots, red cards and more. New to the Scouting Report this year are detailed reports for hundreds of players. With Player Intelligence, choose specific traits and attributes for individual players. These stats are contextualised by historical data, much like the real-life traits that the top players have.

---

Combine this with something like FIFA 20s Squad Leader, and you have all the tools you need to bring every player to their full potential. Improved audio details, that go beyond the traditional audio improvements of FIFA 19. The popular Ultimate Team Manager (UTM) is back, with improved features and customization for both Club and Draft. Players, formations, tactics and even Stadiums are all your choice.
