WARNING: This instruction applies to the initial configuration of the printer and may not be relevant if you have already obtained or calibrated a calibration kit or other device that allows you to read the calibration values. In this case, you can follow the instructions in the calibration or device manual. The printer can require adjustment of the printer paper height position, based on print sheets. In some cases, the printer can be placed on the floor and paper placed on the stand. In other cases, it is possible to set an appropriate printing table height and

place the printer on the printing table. To set the printing paper to the desired position, it is necessary to open the printer, set the paper drive setting, press "PRINT" at the foot of the screen, select "OK", and return to the main screen. Next you select "SET FORMAT", select the desired paper format, and then click "OK". At this point you can select "Paper" at the foot of the screen and select one of the five printing paper settings: LARGE BULLET FORMAT: the size of the printing paper is set to 2.8 x 4.4 cm. You can set either DIN A4 or ISO 216 formats. LARGE TYPE FORMAT: the size of the printing paper is set to 2.5 x 3.8 cm. You 6d1f23a050
