Includes 2 Items! Hey everyone! I was bored all day and decided to make a post about the Nepgear and Feyris characters! So here's a post with 2 items! Feyris is one of the 7 levels 1 NPC monsters in Neptunia Re;Child and she is the mascot character for Super Neptunia RPG too! A set that includes her as well as the monsters Nepgear + Neptune, Neptune + Potato, and Neptune + Berries is on sale for 16,240 yen on the Square Enix item pre-order page! This set includes 2 minishakes. Feyris comes with a set of glasses and Mickey Mouse ears. Plus, you get 2 minishakes! Feyris + Nepgear + Neptune + Potato + Berries + Mouse Ears set + 2 minishakes Plus if you order after the sale ends (July 13), shipping will also be free! That's a total of 4 items you get in this set! Here are my thoughts on the Feyris, Nepgear and Neptune characters. Feyris Feyris means "dainty flower" in English. She is the mascot for Super Neptunia RPG too! There is a bit of a language barrier here because the company had to remove Japanese regions to import her into the US, but she is a cute mascot! The glasses she has on her is really a given for her. Feyris would use them as glasses if she were human, but they fit her figure perfectly! When shown in action in game, Feyris looks pretty adorable and really has a sweet heart. You can do a lot of attacks using her attacks that will work in a regular 1 on 1 fight. There is an enemy named Coco in Super Neptunia RPG that is a lot like Feyris. Probably. Fun Fact: Feyris was even the first character the Super Neptunia RPG series was headed towards when it was beginning. In Super Neptunia RPG and Re;Birth, there is a summon of Feyris for the home servers. This is a very commonly used summon and is one of the best in the game. It is really easy to use and is very similar to the summon of Ribbon Rias (aka. R-Factions). Besides Feyris, Super Neptunia RPG

The mod is designed for lower-mid level characters, i.e. 11-30, and it should still be playable with experienced characters. Thanks to all people who helped with testing. ----- Supported mods: If you have any problems with this mod, or questions please post here: ----- Spoiler Diff
