The closest I've come is using the Java 7 class

loader, but then I can't update my legacy code without having a bunch of classes that don't work. Any advice? A: There is an open issue on the JetBrains tracker for this. In short, you cannot do this. It is a limitation of the VM. It's not the sort of thing that can be changed via the IDE (though you could, of course, configure the class loader in the plugin config). The fix is to use the older version of Java.:) Urban Greens Grow Up Urban Greens Grow Up in New York City "Because in New York, as in many big cities, a person doesn't become an old person until sometime after he or she is dead." One of the defining features of the New York City landscape is its diversity: a microcosm of the world around it. The city is heavily influenced by Latin and African cultures, and its streets are crammed with shop owners of Latin American origin and the original African American residents. Hispanic and African Americans make up a significant portion of the city's population. In the 1980s, New York was home to more than 100,000 Puerto Rican families and to some of the biggest Caribbean bars in the United States, like the legendary popular hangouts
