**Parashara Light 7.0 For Windows 7 64 Bit**

[Download](#)

This application works perfectly with 64-bit Windows Vista and XP. However, after installing the 64-bit version of Windows 7, .NET Framework and Windows Update, you will receive an error: "The .NET Framework 4 could not be found on a system that does not meet the requirements for installation. Please install the .NET Framework 4 on the following computer. If you don't see an error message, the .NET Framework 4 installation will not work." After installing Framework 4 on Windows 7, you cannot work with .NET Framework 4 or any application on Windows Vista or XP. How do I avoid this error message?
